It has been noticed by Management that there was a fracture in the local, and we aim to change that feeling. We are creating a new website, and will be taking the facebook page down. Stewards will be given your contact information for communicating. Stewards had questions on training and what to do in the meantime should a grievance occur. Executive suggested that the stewards tag team and bounce anything they may get off a more experienced steward. Keep the lines of communication open. Also keep track of any time taken for union situations.</p>	
<p>6. plant gate information.</p>	<p>There is a planned plant gate for tomorrow, its just an update handout. We need stewards to hand out at 55 Bay and 120 King. Stewards stepped up for the event.</p>	<p>nfa</p>
